

Downstream Operations Associate Specialist (m/f/d)

Downstream Operations Associate Specialist (m/f/d)

Turn cutting-edge biologics into life-changing therapies one batch at a time

Are you ready to get hands-on with GMP manufacturing for early-phase clinical therapies? As a **Downstream Operations Associate Specialist (m/f/d)**, you'll be right at the heart of the action, helping bring next-generation biologics from process to patient.

- ✓ **Duration:** 12 months (temporary assignment)
- ✓ **Location:** Greater Lucerne area, Switzerland
- ✓ **Employment type:** Temporary placement

About our client

For our client, an innovative company in the biopharmaceutical manufacturing sector, we are looking for a **Downstream Operations Associate Specialist (m/f/d)**. The organisation specialises in the GMP-compliant production of early-phase clinical therapies and is known for pushing forward new technologies within biologics manufacturing.

Your responsibilities

- ✓ Set up, run and troubleshoot **downstream processes** in full compliance with **Good Manufacturing Practice (GMP)** standards
- ✓ Apply and uphold **GMP principles** and **EHS standards** consistently within your area of responsibility
- ✓ Draft and update **SOPs** and **(electronic) master batch records**, and review process-transfer documentation from a technical perspective
- ✓ Manage materials using **ERP systems (SAP)**
- ✓ Contribute to **continuous improvement** initiatives and support the roll-out of new technologies, including non-GMP engineering runs and test activities
- ✓ Take part in **sampling activities** and on-call duties as required by the production schedule, occasionally including weekend work

What you bring

- ✓ A relevant **educational background** paired with **1–2 years of professional experience** in the pharmaceutical or biotech industry
- ✓ A **solution-oriented mindset**, curiosity to keep learning, and the drive to continuously improve existing processes
- ✓ The ability to stay composed and take **ownership** in a demanding **GMP environment**
- ✓ A flexible, collaborative approach when working with internal and external stakeholders to reach ambitious goals
- ✓ **Business fluency in English and German**

- ✓ A driving licence (category B) and access to a car is an advantage, to support on-call duties

What Nemesis AG offers you

- ✓ Nemesis AG is your specialised recruitment partner in the Life Sciences sector, based in Basel
- ✓ Comprehensive guidance and support throughout your application process from our consultants
- ✓ Access to a large network of clients and exciting positions across north-western Switzerland
- ✓ A fast and straightforward way into your next role, thanks to individual coaching and advice during the application process
