

Supply Chain Specialist Material Compliance (m/f/d)

Supply Chain Specialist Material Compliance (m/f/d)

Keep Pharma Supply Chains Moving – As Our Supply Chain Specialist Material Compliance (m/f/d)!

- ✓ **Assignment period:** 04.01.2027 – 31.12.2027
- ✓ **Location:** Schachen (LU)
- ✓ **Employment type:** Temporary placement

About our client

Our client is an internationally active **pharmaceutical company** operating a modern clinical manufacturing site as part of a global production network. The site stands out for its high quality standards, close collaboration with international hubs, and a strong focus on continuous improvement within a regulated GMP environment. As **Supply Chain Specialist Material Compliance (m/f/d)**, you become part of a team that keeps material flows, supplier relationships, and compliance processes running smoothly for clinical manufacturing.

Your Responsibilities

- ✓ Maintaining and updating supplier qualification records to keep the system audit-ready at all times
- ✓ Evaluating material-related changes from vendors or internal stakeholders and steering the relevant **quality change control** process
- ✓ Coordinating material release timelines to secure uninterrupted availability for production
- ✓ Building strong, value-adding relationships with suppliers within your assigned material categories
- ✓ Preparing material specifications as part of qualification activities to enable timely material releases
- ✓ Collaborating closely with tech transfer, procurement, and manufacturing teams on material identification and supplier selection
- ✓ Supporting investigations, quality risk assessments, and change controls on compliance-related topics
- ✓ Developing proposals and business cases for quality improvement initiatives, including planning and implementation steps

Your Profile

- ✓ **Bachelor's or Master's degree** in engineering, pharmacy, or a related scientific field – or at least **3 years of relevant experience** in an academic or industry setting
- ✓ Background in **quality operations, compliance, or supply chain/operations** within a pharmaceutical environment
- ✓ Excellent **English** skills, written and spoken, with confidence communicating across all organisational levels – from shopfloor to site leadership

- ✓ Strong **collaboration and influencing skills** paired with a genuine team spirit
- ✓ Solid **analytical thinking** and ability to manage shifting priorities
- ✓ Proven **problem-solving mindset**, comfortable challenging the status quo and driving continuous improvement
- ✓ Confident use of **MS Office**, particularly Excel; **SAP knowledge** is a plus
- ✓ Openness to diversity, inclusion, and ongoing learning
