

Technical Transfer Manager – Medical Devices (m/f/d) 80 - 100%

Technical Transfer Manager – Medical Devices (m/f/d)

Shape the Future of Medical Device Manufacturing (m/f/d)

- ✓ Assignment period: 01.10.2026 – 30.09.2027
- ✓ Location: Basel
- ✓ Employment type: Temporary position

About our client

For our client, an internationally operating pharmaceutical company recognised for its innovative medical devices and combination products, we are looking for a Technical Transfer Manager – Medical Devices (m/f/d). The company holds a leading position within the global life sciences industry and stands out through its strong focus on quality, technological excellence and patient-centred solutions.

Your responsibilities

- ✓ Lead technical transfer projects for combination products, medical devices and secondary packaging across an international manufacturing network
- ✓ Define and drive an aligned transfer strategy that connects development activities with site-level operations
- ✓ Act as Transfer Team Lead for device and packaging launch activities, coordinating cross-functional project teams
- ✓ Support lifecycle management of existing products and coordinate the implementation of changes to the device platform
- ✓ Collaborate closely with Device Development, Technical Operations, Regulatory Affairs and Supply Chain
- ✓ Contribute to internal and external audits covering packaging and medical device topics
- ✓ Prepare technical documentation for medical device and combination product registrations, including responses to health authority questions
- ✓ Provide manufacturing input during design control stages of device development

Your profile

- ✓ Completed studies (e.g. PhD or engineering degree) in Mechanical Engineering, Pharmaceutical Technology or a related field
- ✓ Several years of professional experience in pharmaceutical manufacturing, ideally in assembly and packaging, manufacturing science and technology, or technical development
- ✓ Sound knowledge of design control documentation such as DHF, DMR, pFMEA and URS
- ✓ Familiarity with regulatory frameworks including 21 CFR Part 210/211, 21 CFR Part 4/820, ISO 13485 and related medical device directives
- ✓ Strong project management skills paired with excellent analytical and technical reporting abilities
- ✓ Confident communicator with intercultural sensitivity, comfortable working within a global matrix organisation
- ✓ Fluent in English; additional languages are an advantage

What nemensis offers you

- ✓ Nemensis AG is your specialised recruitment partner in the Life Sciences sector, based in Basel.
- ✓ Comprehensive guidance and support throughout the application process provided by our consultants.
- ✓ Access to an extensive network of clients and exciting positions across north-western Switzerland.
- ✓ Fast and straightforward entry through individual coaching and support during the application process.
