About our client

For our client, an established biopharmaceutical manufacturer near Lucerne, we seek an Upstream Process Operations Specialist (m/w/d). The company expands its GMP manufacturing of early-phase therapies via continuous and fed-batch processes.

Your responsibilities as Upstream Process Operations Specialist (m/w/d)

- ✓ Set up, run and troubleshoot **upstream unit operations** under GMP
- ✓ Draft and revise **SOPs** and electronic master batch records; review related documentation
- ✓ Manage materials via **SAP** and ensure compliance with GMP and EHS standards
- ✓ Support continuous improvement and new technologies, incl. non-GMP engineering runs
- ✓ Join sampling activities and on-call duties per schedule (no regular shift work)

What you bring to the role

- ✓ A **degree in a relevant scientific or technical discipline**
- ✓ Around **0–2 years of experience** in pharma or biotech
- ✓ An analytical, solution-oriented mindset and willingness to learn
- ✓ Composure under pressure in a **GMP environment**
- ✓ Fluent German (C1) and solid English (B2+)
- ✓ Residence near Schachen (LU) or willingness to relocate, driver's licence (B) and own car
- ✓ Ideally prior **bioreactor** experience and familiarity with DeltaV and PAS-X
